

Career Pilot AI — API Keys & Setup Reference

Every environment variable this codebase reads, grouped by cost, with where to get it and what it unlocks. Verified against `server/api/settings.py` and `server/ingest/sources.py`.

Already filled in `server/.env`: `RAPIDAPI_KEY`, `GROQ_API_KEY`, `STRIPE_SECRET_KEY`, `STRIPE_PUBLISHABLE_KEY`, `INTEGRATION_ENCRYPTION_KEY`. Still empty: `USAJOBS_*`, `ADZUNA_*`, `ANTHROPIC_API_KEY`, `SUPABASE_*`, `AUTH_SECRET`, `TWILIO_*`, `STRIPE_WEBHOOK_SECRET`, and the Stripe price IDs.
